

Post bases

10920.1000

Innovative wood connection systems for highest requirements.

PIST Metallbau GmbH & Co. KG
DIN EN 1090-2

ZiNiP
max protection

Post bases Right / left threaded

PTP easy post base 10920.1000

A system for all applications! Threads of 20 to 30 mm and the most varied plate sizes with 6 to 15 mm material thickness - we have the perfect solution for any application. Lift-off and lateral impacts can be counteracted with a straight screw connection into the cross-grained wood using fully-threaded 10 x 120 mm wood screws (with European Technical Approval) or a strut or lateral latches. Of course, post bases of the right/left-threaded system are still height-adjustable when mounted and under heavy load. The use of additional lock nuts increases the rigidity of the connection.

Upper plate mm	100 x 100 x 6
Lower plate mm	160 x 100 x 6
Thread, M24 low.	65
Thread, M24 upp.	65
Borehole Ø 13 mm bottom	4
Borehole Ø 12 mm top	4
Installation height mm	142 - 207
max. characteristic pressure bearing capacity (kN) *	120,0
CE	*
Suitable cover sleeve item no. 10834.____	.2000

Static values

Direction of force	Char. load-carrying capacity (kN)	Design value γ_M 1,3 and k_{mod} (kN)				
		Permanent 0,6	Long 0,7	Medium 0,8	Short 0,9	Instantaneous 1,1
F ₁ Compression	120,00	55,38	64,62	73,85	79,45**	
F1 Tension 120 mm*	30,00	7,40**				
Lateral force F ₂ /F ₃	2,20	1,76**				
Lateral force F ₄ /F ₅	1,20	1,20**				

* Mit Tellerkopfschrauben \varnothing 10 x 120 mm

** Steel failure decisive

Further static values can be found in our design manual at www.pitzl-connectors.com/en/downloads

Accessories

Item no.	Description
99210.1012	Washer-head screw 10 x 120 mm
10834.2000	Cover sleeve for thread M24 Adjustment range: 115 - 215 mm
